An enthusiastic web developer, I specialize in projects involving HTML5 and CSS3, with a strong expertise in Bootstrap and JavaScript. I have developed two additional web applications with responsive web design and have completed certifications in HTML5, CSS3, and JavaScript. I am seeking the finest opportunities to kickstart my career as a web developer and accelerate my knowledge accumulation in emerging technologies.

- **10th Grade**　　　　　　　　**(Jun 2016 – Apr 2017)**
  Sai Ram Matric Hr Sec School
  80.0 - Percentage

Skills

- HTML
- CSS
- JavaScript
- Bootstrap
- Responsive Web Design
- Java
- MY SQL
- React JS

Projects

Car Buying Website → Using HTML , CSS , JavaScript, Bootstrap:

I developed the Dynamic Car Buying web application using HTML, CSS, JavaScript, and Bootstrap. The application helps users to buy cars more easily and also book test drives online.

Olympics-2021 → Built Using MySQL :

Utilized MYSQL-8.0 for a comprehensive database on medal-winning countries in various sports. Implemented constraints for data integrity, and generated a detailed report using Excel for analysis and visualization. Key countries include China, Japan, America, Uganda, and Spain, with medal distribution across events

YouTube Clone → Using HTML , CSS , JavaScript:

I am creating a YouTube clone project using HTML, CSS, JavaScript. This project will replicate the user interface of YouTube, enabling users to watch, and interact with videos seamlessly.

Certifications

- Java Full Stack-Successfully Completed at Besant Technologies in Velachery, Chennai
